Treated Tenderly in Dying.

Without a Change.

Executive Committee yesterday afternoon

Rules was a regular love feast. There were

were of small moment, and greater harmony

Chairman W. D. Porter rapped for order.

were read. Mr. William Flinn objected

to the wording of a motion attributed

to him as recorded. The way it was

put down in the minutes was that

Mr. Flinn had moved for the appoint-

ment of a special committee to revise "the

so-called obnoxious rules" of the County

Chairman Porter.

THE OFFICERS MAKE SHORT ADDRESSES

The day was all that could be desired. Not one drop of rain fell from sunup until evening to mar the pleasure of the thousands of glassblowers, with their wives, sisters and sweethearts who attended the picnic. The special trains out of Pittsburg and Allegheny carried with them nearly every glassblower in the county, and three extra trains from the Ohio Valley had to be put on to accommodate the crowds from Wheeling and vicinity.

that the reunion was in every way a perfect

The thousands of readers of THE DIS-PATCH need no introduction to Rock Point. The many shady nooks, the long graveled walks through the trees, the dozen or more lovers' seats cut in niches in the huge rocks and the beauteous views of nature along the picturesque Connoquenessing are all well known. As fast as the different trains stopped at the station the people scrambled out and overran the grounds. Luch baskets were opened and those who did not care to dance put in most of the time lying about on the grass and catering to the wants of their inner man.

JUST OUT FOR FUN. An open air meeting was advertised for the afternoon; but the majority of those present came to enjoy themselves at a picnic and had no time to listen to speeches. The two large dining pavilions were crowded to their fullest capacity most of the day by those who loved that kind of amusement. The Mozart Orchestra and the Royal Italian Band played their best music for the followers of the terpsichorean goddess, while the Mayer Brass Band, of Wheeling, ren-

dered sweet operatic music during the day. Besides the dancing all kinds of amuse-ments had been provided by the different committees. There were foot races, sack races, potato races, a baseball game and a at men's race. There was the "merry-goround," with its wheezy hand-organ accom-paniment, intended to lure people inside the ropes, but in reality had the effect of driving many away. The swings, bowling alleys, etc., were also centers of attraction

to the thousands of men and women. In the forenoon the grounds were overrun with "fake" or "win" games. The "shell" men were there in great numbers, there being half a dozen boards in opera-tion at one time. It would be impossible to enumerate the other devices for the purpose of catching the shekels of the unwary. The cane man, the "blower," the "striker," the "lifter," and the "c.on," who held up his head for people to throw gum balls at, were scattered all over the ground. Something new at the place is a roller coaster, that did flourishing business all day.

SEEING THE SIDE SHOW. A very small side show, that formerly traveled with a smaller fly-by-night circus, had its tent pitched on the ground and made about enough money to feed the "skeleton who never eats." The circus furnished amusement to the city people who had been to see Barnum's or Forepaugh's shows and the men who patronized it silently slunk away and kicked themselves. There was but one performer who had a high sounding name with the title of "Professor" tacked to the front end of it. A very heavy woman in black tights, took tickets at the door but did not perform, except occasionally take a whirl at the hand-organ, while the boy was assisting the professor. A Wylie avenue colored citizen, whose face was streaked with paint and his hair soaked in pictures of himself and gave an exhibition of very poor whistling. While not engaged n these arduous duties, he beat a heavy bass drum, keeping tune with the hand-organ. The whole show carried the ob-servers back to Dickens' "Old Curiosity Shop," and the author's characters of the traveling showmen.

During the day a number of fights oc curred between the managers of the picnic and the "fakirs., The latter were working under the direction of a well-known gambler of this city and would not leave the grounds when ordered. They were

PUT OUT OF THE GROVE proper, and opened up business on the walk leading to the station. Here, a well-known alleged prize fighter of this city, who has had his face smashed a number of times, knocked down a manager and kicked him Another man was knocked over the hillside

and slightly injured. An industry, that apparently sprung up

from the ground, as if by magic, was a number of pocket "speak easies." About a dozen men, residents of the place, coined money selling pint and half pint bottles of alleged whisky. They had no trouble dis-posing of their stock, but they never sold twice to the same man. The stuff was worse than the "embalming fluid" to be purchased at Johnstown, and there was no necessity of going to a circus to see snakes if one drank a good mouthful of it. The stuff was a concoction of alcohol and something else no one could analyze. Where the men got it it was impossible to discover. If a person asked for a halfpint, one of the dealers would disappear and in a No Better, No Cheaper Made. few minutes return with the stuff

In the afternoon President William Smith made an address. His speech was a beautifully worded picture of the benefits of organized labor, and gave a history of the as-sociation. He said the latter was organized July 9, 1879, in Pittsburg, with a member-ship of about 1,000. This has been increased ship of about 1,000. This has been increased to 6,000, and takes in every glassworker in the country. The history of the organization shows a continual struggle with the glass manufacturers. The association fought them until at last they won the respect of their employers by their manner of fighting for what they considered their rights.

till 9 next Wednesday evening and will be closed at noon on Thursday, the 4th. SECRETARY DILLON NEXT.

Secretary William Dillon followed the President. He culogized the glassworkers, and especially the Federation of Trades. He spoke of the eight-hour movement day to present a neat, perfectly harmless pistol, together with 600 paper-cap shots, with every boy's suit. which is sweeping over the country, and said they were all working for one common cause, viz, the elevation of labor.

A NOTICEABLE OPENING.

Handsome New Drug Store Opened at No. 27 Sixth Street. The handsomest and best appointed drugstore in the city has just been opened for business at No. 27 Sixth street, in the Albemarle Hotel, by J. A. McKibben & Co.
The carpenter work of this beautiful store
is by the well-known firm of Slack &
Sholes, which statement is in itself a guarantee of its elegance and fine finish. The interior is finished in cherry throughout, highly polished. The floor is tiled and the walls and ceiling papered, the general effect being very pleasing. The shelves are stocked with a full line of the freshest and purest goods. All having prescriptions that cannot well be filled elsewhere are invited to bring them here, where the new drugs are always to be obtained. Dr. J. A. McKibben, who now presides, wishes to an-nounce to his brother physicians that he has

Horse for Sale Cheap.

"Why, I want 'obnoxious' stricken out,"

Mr. Neeb suggested that they be taken up seriatim. Mr. S. P. Conner moved that they be adopted as read. Colonel T. M. Bayne seconded the motion, and in support of it said that the new rules gave practical Republican representation. "I have made no personal objection to anything that has een done," continued Colonel Bayne, "but I did feel an interest in having a fair representation. I think these rules are very fair, and there is no need to take them up

Mr. Mark Donley wanted ts know why a change had been made in the rule regarding the length of residence of voters in a district. The new rule made it 60 days, and he thought that was unfair, as many persons move on April 1, and it would shut out Republican voters at the primaries. Chairnot be ignored. Mr. Flinn said the same.
'Squire Schaffer insisted that it was not the law, and that any rules that the different

party committees might make were recog-nized as the law. He moved to amend the rule by making the limit residence 10 days. This was seconded by Mr. Donley. Chairman Porter (Mr. 8. P. Conners in the chair), then read the act of Assembly governing primary elections, which became a law June 29, 1881. It is found on page

115 of Smull's Hand Book. The sec which covered the case is as follows:

STICKING TO THE LAW.

Mr. M. G. Frank insisted that the limit of residence should be less than 60 days for a primary election. "But the rules provide for that," said Mr. Porter. "The primaries are not to be held until the first Saturday in June, and that lets in people who moved on

April 1." After some more discussion, 'Squire Schaffer's motion to make the limit ten days, was lost. Then Mr. Donley remarked: 'Can the Republican County Committee sentatives in the town and are figuring on compel the Democratic County Committee to obey the law, as we must?" in the wrong place for that question," re-plied Mr. Porter, who had resumed the chair. "We are Republicans here." The

Mr. Neeb then moved that the recom-

following persons were named: First district, John N. Neeb; Second, James Bradley; Third, James Getty, Jr.; Fourth, George H. Treusch; Fifth, S. H. French and William Flinn; Sixth, Miles Bryan; Seventh, Walter Lyon; Eighth, William Germon.

The committee then adjourned to meet on

makes no difference; they are made for the people who can't play."

"Oh, you can play, can you? That's all right; they are made for you, too, my friend. The Æolian organ is the universal instrument. It is, first, a perfect key-board organ for the expert musician, and also an instrument upon which anyone entirely ignorant of music can play anything without the slightest practice." Write for catalogue. It is only at our establishment that you get them.

John Ehmer, one of the best known labor editors of this city, made the closing address of the meeting. His speech was a praiseworthy commentary on the Federation of Trades, and he closed by advising his hearers to organize for the eight-hour movement. Samuel Gompers, the President of the Federation, who was billed to speak did not arrive in time, owing to the wreck on the Pennsylvania Railroad. He deferred his speech until to-day.

The baseball game was won by the Pittsburg club, they deteating the Nail City boys by the score of 6 to 0. The sack race was won by Jenkin Williams, of the Southside. H. M. Kerr, of Beaver Falls, was the winner of the 100-yard race. The potato race was won by Tony Haas, of this city. Harry Woods, of New Brighton, distanced all competitors in the fat men's race, and re-

ceived the prize of \$5 worth of beautiful

glassware.
The Chairman of the General Committee was George Knowles; of the Floor Committee, John Stroble and Peter Strickel. Among the visitors at the grounds was Joseph Roseman, the first President of the

A GAY CROWD. The last train up from Rock Point, which got in at 12 o'clock last night, was crowded with the late ones who are wont to stay until the last shade of recreative sport has

gone. Some of them got a shade or two the worst of it. Union station was filled with hilarity as soon as the train stopped, and both women and men chimed in to make it a perfect bedlam. There were no serious results, however, until the crowd reached a Liberty street saloon, where a half dozen of the gay

PURE WATER.

Near at Hand. Messrs, Haller, Beck & Co. are now giving away large quantities of the pure wat that condenses from the evaporated artesian water used at their saltworks on Rebecca street, Allegheny. A chemical analysis shows this condensed water to be perfectly pure. Messrs. Heenan and Brown, both residents of Allegheny, who have just returned from Johnstown, report great quantities of filth being dumped into the river there, and say that if the people could see these dumps they certainly would not drink any river water. Many families are securing the pure water from Messrs, Haller, Beck & Co. for drinking and cooking pures of the first in present of the second securing the pure water from Messrs, Haller, Beck & Co. for drinking and cooking pures. poses. AN EIGHT-HOUR CHAT

President Compers, of the Federation of Trades, in the City.

TALKING OF THE LABOR MOVEMENT.

A Gigantic Demonstration to be Held in Chicago on the Fourth.

TO ORGANIZE A FEDERAL UNION HERE President Samuel Gompers, of the Federation of Trades, arrived in the city vesterday afternoon and went to Rock Point to attend the reunion of the American Flint Glass Workers' Association at that place. He arrived there too late to speak, being delayed by the wreck on the Pennsylvania

Railroad. He will deliver an address at an open meeting under the auspices of the Flints at Odd Fellows' Hall, Eighteenth street,

President Gompers. NEWSY CHAT WITH THE CHIEF. A representative of THE DISPATCH ac companied Mr. Gompers from Rock Point to Pittsburg last night and had a pleasant talk with him in regard to the eight-hour movement, which is now being agitated by the Federation. So far there has vet been no open demonstration held in this city and there will not be for several months yet. A number of private meetings will be held on July 4 in Pittsburg, white there will be

outdoor mass meetings, parades, etc., all over the country in favor of the movement. In his talk Mr. Gompus said: "The agitation in favor of the movement has been spontaneous all over the country, and the success we are meeting with has exceeded my most sanguine anticipations. On July 4 there will be State conventions held in Texas, Alabama and Georgia, and in Minnesota there will be a State demonstration. The latter is a uniform action in all the cities and large towns in the State, while the conventions are to be held to pro-

constitute a day's work.

"In the following cities there will be great demonstrations: New York, Boston, Philadelphia, Cincinnati, St. Louis, Syracuse, Buffalo, Portland, Ore., San Franbrick, while Mr. Babcock sneaked up cisco, Duluth, Minn., Milwaukee, New Haven, Conn., Newark and Paterson, N. J., Indianapolis, Evansville, Ind., Grand THE GREATEST DEMONSTRATION that this country will ever see. The Com-mittee of Arrangements there have looked after accommodations for between 80,000

> arranged under the auspices of the Trades Assembly.
> "On February 22, last, we had our first demonstration in favor of the movement. The meetings were held in 140 different cities throughout the country. On the fourth of next month we we will have our second demonstration. The demand for the eight hours will be made on May 1, 1890, and we will have a perfect organization by that time. "There is not much known of the Federa-

> tion in this city, although we held our first meeting here. We organized in November, 1881, with John Jarrett as chairman. We

now represent over 600,000 members in the different labor organizations through-out the country. In Pittsburg the follow-

ing unious are in the Federation: The American Flints, the Amalgamated Association of Iron and Steel Workers, the Brotherhood of Carpenters, the painters and decorators, tailors, cigar makers, tile layers and plumbers and the Typographical Union. The Federation holds the same relation to these organizations that the Federal Govern-ment does to the different States." There is a movement on foot to organize in this city a federal union of the Federa-tion of Labor. This will be composed of

wageworkers who are in mixed assemblies or unions. There are quite a number of these people who want to affiliate with the Federation, but have no trade organization

by which they may become attached.

ILLINOIS VERSUS PITTSBURG. Intimate Connection of the Lock-Out is Northern Illinois With the Local Conl Trade-News to Miners. The miners of Illinois, 10,000 of whom are now opposing a material reduction of wages, have sent a committee to the Pittsburg district to solicit aid, as will be noted by the official certificate printed herewith. Those

important information by perusing the points furnished by the committee as pub-lished below: COAL CITY, Ill., June 23, 1889.

To whom it may concern:

This is to certify that John McFee and William Stewart are duly appointed to receive and collect aid for the striking miners of Hilinois, who are resisting a 10 cent per ton reduction.

After exhausting all efforts to bring about an equitable settlement, we were insuited and told if we did not accept the terms offered, the operators would make it 20 instead of 10. Now, if the miners of Northern Hilinois accept the reduction, the miners of Ohio and Pennsylvania will be made to compete, and must go idle or suffer a reduction in their wages. Asking a liberal support in behalf of our suffering craft, we are fraternally in the cause,

ROBERT M. RKEED, District President.

WILLIAM SCAIFE, Secretary-Tressurer.

In addition to the reduction proposed the COAL CITY, Ill., June 23, 1889.

In addition to the reduction proposed the miners of La Salle and Spring Valley are asked to take a further reduction equal to 25 per cent in dead work, consisting of a feet more husbing and foot more bushing, and to keep the roads afterward 4 feet 6 inches high, which is 6 inches more than the Braidwood roads that

though the seat of contest is in Northern Illinois, the line of battle extends into the East as far as mines are located that ship bituminous coal to the Northwest. It is on this ground that the Illinois miners request assistance from the Pittsburg district. Those Obliterated County Rules

THOSE IMPORTED GLASS BLOWERS.

President Evans Makes a Report to the Central Trades Council. The regular meeting of the Central Trades Council was held last night with, President

Joseph L. Evans in the chair. The credentials of J. G. Snyder and John S. Nast, of the Brotherhood of Carpenters and Joiners' Union 142, and John Larkin. of 6332, K. of L., were received.

The report of President Evans on the importation of foreign glass workers was read. It was as follows:

PITTSBURG, June 29, 1889. To the Officers and Members of the Central Trade Council of Western Pennsylvania: To the Officers and Members of the Central Trades Council of Western Pennsylvania:

GENTLEMEN—Having been appointed by the Executive Board to carry out the instructions issued by this body at your last meeting, I beg leave to report that I have attended to the same. I consulted Wm. J. Brennen, attorney, who laid the entire law before myself and some others decided to proceed under that portion of the law which allows us to demand an investigation at the hands of the Goyernment, and which provides for the sending back of the imported workmen if they are found to be here illegally. All papers were therefore turned over to Mr. Brennen, and he was instructed to proceed to Washington, and lay the matter before the Secretary of the Treasury. This he has done, and the matter is now where the truth or falsity of the accusations may be proven. I shall keep you thoroughly posted as to the progress of the case, and, in the meantime, you are requested to exercise patience. Inasmuch as the Treasury Department at once commenced operations, I do not think the case will be long delayed. Respectfully submitted.

VICTIMIZED COLLIERS. Coal Miners Can't Work Because They Won't Patronize Pluck-Me's.

SHANERS, PA., June 28, 1889.

Mr. John Fiannery:

SIR AND BROTHER—We, the miners of Shaner Gas Coal Company have been victimized for not dealing in the company store, and as we have had very poor work for the last year, the men here, of course, are in want. So you will please send all the assistance you can, and as soon as you can. We have 265 men, women and children here. Some of the men went to hunt work, but say they could not get it "because they were from Shaner."

COMMITTEE.

The measure exprinces of the miners have been The meager earnings of the miners have been gathered in by these terrible and hated stores, and unless the public contribute to a fund to provide food and shelter for the families of the

trade of the eastern regions must be badly disturbed thereby in the price of contracts and the rate to the miners. It should be noted also that this is largely a contention in the first place between the operators of Northern Illinois and those of the East, inasmuch as in convention the Illinois operators declared that the Western Pennsylvania operators were competing with them owing to natural gas interfering with sales at home, and that to meet this, Illinois would go below Pennsylvania in the markets. markets.
